Martin has been photographing weddings and other events for over 40 years. Although his experience has been primarily in the DC Metro area, he has photographed destination weddings in Bermuda, Mexico, Hawaii and Lake Tahoe. He also shoots weddings on the Outer Banks of North Carolina.

Some of Martin's corporate clients have included Northrop Grumman, Home Properties LC, KSI Property Management, Quality Tours, AJ Dvoskin & Company, Bluepoint Surgical Group, Potomac Hospital, Commercial Carpets of America and Cuisine Solutions.

After 40 years in the business, Martin is still doing what he loves. Having a camera in his hand and capturing life through a viewfinder is merely an extension of himself. Martin is a people person and he enjoys being with people at the joyous times of their lives, whether it be a wedding, an anniversary, a mitzvah or a group of employees celebrating with each other at a corporate holiday event. Martin has lost track of the number of weddings and events that he's photographed. Even though the number is in the thousands, he has never lost his desire to improve upon the way he capture life's important moments. Each and every wedding he photographs is special to him.

Desiree Photography is Desiree's life. She loves pictures and people, is seldom without a camera and it has been that way for as long as she can remember.

Desi studied photography and art throughout high school and college. She chose to follow her love of photography by becoming a photographer at one of the largest, most well-respected studios on the east coast. Desi worked at the studio for seven years polishing her studio shooting techniques

Desi has been a member of the Torre Photography team for several years. Weddings are among her favorite things to photograph. Even though studio photography a great experience for her, Desi quickly discovered that her real strength was photographing weddings. She enjoys the journalist style of photography and achieves a great balance of combining traditional posing and lighting with fun, creative shots. Desi is always looking for ways to incorporate new poses and angles into her wedding photography. Wedding day pictures are so important and Desi is always thrilled to be a part of the special day.

Margarita considers herself a lifestyle photographer with a photojournalistic approach. She loves to capture moments as they happen but never loses focus on the traditional "must have" pictures that are very important for most couples. She chose to be a photographer because she knows memories should be recorded not only in your mind but also in print. Life passes us by way too fast and capturing those fleeting moments is what she loves the most. Memories can fade and people forget many of the little details that made their wedding unique and special. Photos will last a lifetime. Margarita has been taking photographs all her life and has been doing so professionally for 7 years.
